

PRODUCT UPDATE INFORMATION

This new shape is an answer to feedback that we received from many field applications.

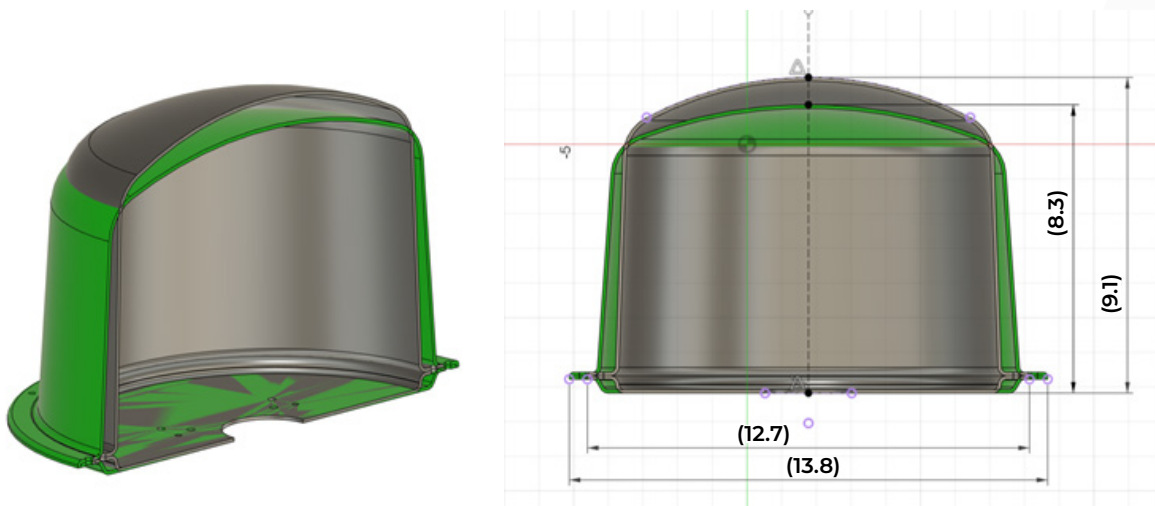

Highlights of this small product change include:

#1 - Golight's part number will not change!! We will still only offer 1 security dome part number. **Golight #17920**

#2 - The slight change to the dome shape now allows it to be used for both the Golight GT and Stryker ST permanently mounted products.
(previous shape was only compatible with the Golight GT series)

In the below comparison images, provided by our engineering department, our new security dome is shown in green, and the previous style dome is represented in grey:

(Dimensions in inches)
